# TOMMASO GAZZINI

Zurich, Switzerland • +41 76 635 53 54 • tom.gazzini@gmail.ch

## SUMMARY

Robotics master's student at ETH Zurich with hands-on experience in robotic systems, hardware deployment and public technology demonstrations. Fluent in six languages and comfortable interacting with clients in international environments.

## LANGUAGES

- English - fluent
- French - fluent
- Italian - fluent
- German - fluent
- Spanish - fluent
- Russian - fluent

## WORK EXPERIENCE

**Software Engineer, Stack Auth (YC S24)** (sept - dec 2025) **YC Startup, San Francisco**

- Developed authentication infrastructure features for an open-source startup backed by YCombinator, including implementation of the Model Context Protocol (MCP).
- Organized and led 4 hackathons to gather real-time feedback from developers, accelerating iteration of newly released features.

**Co-founder, Striker** (previously Fuzefoot) (2022 - ongoing) **Entrepreneurial ventures**

- Developed a platform to find and organize football games in Geneva, Zurich & Paris
- Managed technical development, community building, and full-cycle project management.
- Achieved tangible impact with 2500+ members and 500 organized games.
- Techstack : ReactJs, Python, WordPress, MySQL, PHP

**AI Workflow Automation , Lets-Med** (2024) **Agentic AI**

- Expanded a website contract into an AI platform digitizing thousands of medical devices.

**Software engineering internship, Elysium Sarl** (oct - dec 2023) **Software development**

**Teaching assistant, ARA** (2016 - 2023) **Tutoring**

## ROBOTICS

ETH Robotics Club - **Robot Learning Team** (sept 2025–Present)

- Contribute to hardware integration and deployment of robotic systems, including a **bimanual teleoperation setup** and the **Unitree G1 humanoid**, working with robotic hardware and Vision-Language-Action (VLA) models.

## EDUCATION

**Master's in Mechanical Engineering (2024 – Present) - ETH Zurich**

- Focus: Robotics, Computer Vision, and Machine Learning (AI)
- Engaged in projects and coursework in autonomous robotics, sequential convexification for autonomous systems, and deep learning-based image analysis.

**Bachelor in Microengineering (2020-2023) - EPFL**

- Hands-on robotics and coding projects using python and c++

**Exchange semester in Saint-Petersburg Russia (March - August 2018)**

- I self-organized my exchange in Russia, where I achieved fluency in Russian.

## ACCOMPLISHMENTS

- **Swiss Military Special Forces:** (2024) Demonstrated discipline, resilience, and the ability to perform under high-pressure situations.
- **Competitive Water Polo:** (2010-2023) 12 years commitment to national and international level participation, showcasing strong teamwork, leadership, and perseverance.
- **6 Languages :** Achieved fluency through social immersion while living abroad (6 countries)
